Pages/Menus (required):

Home Page Text (required):

About Us Page Text (required):

Services Page Text (required):

Contact Us Page Text (required):

Any other additional notes you'd like to include?

Additional Text For Additional Pages (please label each page):

In addition to the above information, we will need the following from you:

1. Company Logo – high definition logo (190x60)
2. Any additional images that you would like to include
3. The PayPal email that you would like to have for your e-commerce store (if you need one). Include this as an extra page in the descriptions above if you want an e-commerce store setup. It is your responsibility to load the products, including any images you want for each product and any description and price that the product will sell for. Once the website is completed we will give you a checklist of the things you need to do to finish setting up your store. If you want us to do this, it will be an extra charge and will be quoted based upon the number of products that we need to load.

It is your responsibility to proof read each page of the website before you sign off. Once we have signoff, the website will go live and any subsequent changes will be charged at the current going rate or we can base the hosting rate depending upon what responsibilities you want us to assume. The basic hosting rate with no services is \$25/month.

We look forward to working with you on this project.
